PROFILE

- **Summary:** Second-year Computer Science Engineering student at The Maharaja Sayajirao University of Baroda and an AI/ML enthusiast with hands-on experience in building intelligent systems, full-stack applications, and data-driven platforms. Actively involved in hackathons, research-driven projects, and startup initiatives including government-supported innovations. Interested in applying Artificial Intelligence to solve real-world problems in agriculture, smart cities, and climate technology.

EDUCATION

- **The Maharaja Sayajirao University of Baroda** Vadodara, India
Bachelor of Engineering - Computer Science and Engineering *Jun 2024 - Apr 2028*
- **Ashadeep IIT** Surat, India
Higher Secondary Education (Class XII) *Completed: 2024*
- **Akshardham High School** Surat, India
Secondary School Education (Class X) *Completed: 2022*

SKILLS SUMMARY

- **Programming Languages:** C, C++, Java, HTML5, CSS3
- **AI / Machine Learning:** Machine Learning, Model Training, Random Forest, LLM Applications
- **Tools & Platforms:** Git, GitHub, Supabase
- **Soft Skills:** Leadership, Team Collaboration, Problem Solving, Technical Communication

EXPERIENCE

- **Code Vimarsh** Vadodara, India
Web Development Team Member *Jan 2026 - Present*
 - Developed and maintained the official Code Vimarsh website.
 - Built responsive UI components using modern frontend technologies.

PROJECTS

- **AgriForge AI – Smart Agriculture Platform:** Built an LLM-powered agriculture system for crop classification, disease detection, and advisory insights with integrated crop calendar and market yard price analysis.
- **Eunoia Homoeopathy – Professional Website:** Delivered a complete client-ready website from design to deployment including hosting, domain setup, and production deployment.
- **Urban Intel AI – Smart City Governance Platform:** Built an AI system to predict urban risks such as water scarcity, traffic congestion, and health hazards. Trained six Random Forest models and integrated a local LLM (TinyLlama) for policy recommendations while ensuring full local data privacy.
- **Mumbai Pulse – CityForge (NASA Space Apps Challenge 2025):** Developed a real-time city analytics platform using NASA Earth Observation data and created GIS dashboards for heat, air quality, and water monitoring.
- **Smart Cattle Health & Milk Yield Prediction System:** Developed an AI-powered dairy management system achieving 90% milk prediction accuracy and 85% disease detection accuracy with dashboards and PDF reports.
- **Coastal Threat Alert System:** Built an AI and satellite-data platform for coastal disaster alerts and designed role-based dashboards for multiple stakeholders.

HONORS AND AWARDS

- Winner – NASA Space Apps Challenge 2025 (Local Event)
- 1st Runner-Up in Gujarat – IBM AI Innovation Challenge
- SSIP Funding Recipient – AgriForge AI selected for SSIP funding
- 1st Runner-Up – Ingenious Hackathon 7.0 (Ahmedabad University)
- Top 40 Finalist – HackovateLJ 2025 (LJ University)
- Participant – HackOut 2025 Hackathon (DA-IICT)
- Certificate of Acknowledgement – Bharatiya Antariksh Hackathon 2025 (ISRO)
- Game Jam Participant – ITM University Baroda

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Gujarati
- **Leadership:** Project Lead and Architect for multiple hackathon teams
- **Interests:** AI for Social Impact, Climate Tech, Hackathons, Open Source
