PROFILE

- Summary:** Third-year Computer Science Engineering student at The Maharaja Sayajirao University of Baroda and an AI/ML enthusiast with hands-on experience in building intelligent systems, full-stack applications, and data-driven platforms. Actively involved in hackathons, research-driven projects, and startup initiatives including government-supported innovations. Interested in applying Artificial Intelligence to solve real-world problems.

EDUCATION

- The Maharaja Sayajirao University of Baroda**
Bachelor of Engineering - Computer Science and Engineering
Vadodara, India
Jun 2024 - Apr 2028
- Ashadeep IIT**
Higher Secondary Education (Class XII)
Surat, India
Completed: 2024
- Akshardham High School**
Secondary School Education (Class X)
Surat, India
Completed: 2022

SKILLS SUMMARY

- Programming Languages:** Python, Java, JavaScript, C, C++, HTML5, CSS3
- Frontend:** React.js
- Backend:** FastAPI, REST APIs, Authentication, JWT, OAuth
- Databases:** PostgreSQL, Supabase
- AI & Machine Learning:** LLMs, Prompt Engineering, LangGraph, ChromaDB, YOLOv11, XGBoost, Random Forest, TinyLlama
- Cloud & DevOps:** Git, GitHub, Docker, Vercel, CI/CD Fundamentals
- Tools:** VS Code, Antigravity, Cursor, AI Development Tools

EXPERIENCE

- Dev Infinity Club**
President
Vadodara, India
July 2026 – Present
 - Currently leading the Web Development Club of the Department of Computer Science & Engineering at The Maharaja Sayajirao University of Baroda.
 - Organized and managed technical workshops on Portfolio Development, Prompt Engineering, and Backend Engineering Bootcamp for CSE students.
- Elite Coders**
Open Source Contributor (Global Rank #5)
Remote
July 2026 – Present
 - Ranked among the **Top 5 Global Contributors** on the Elite Coders platform through consistent open-source contributions.
 - Contributing to real-world software projects by implementing features, resolving issues, and collaborating with developers worldwide.
 - Improving code quality through debugging, code reviews, and adherence to software engineering best practices.
- Code Vimarsh**
Web Development Team Member
Vadodara, India
Jan 2026 – Present
 - Developed and maintained the official Code Vimarsh website with a focus on performance, responsiveness, and user experience.
 - Built reusable and responsive frontend components using modern web technologies.
 - Collaborated with the development team to implement new features, optimize UI/UX, and improve website functionality.

PROJECTS

- **LogiMind AI – Maritime Intelligence Operating System:** Built an AI-powered maritime logistics platform featuring FastAPI backend, React frontend, LangGraph multi-agent architecture, YOLOv11 PPE detection, XGBoost predictive maintenance, ChromaDB RAG-powered AI Copilot, and real-time operational dashboards for intelligent port management. Secured 6th Rank at Hackverse Mumbai among 50+ teams and received an invitation to Microsoft Office, Hyderabad for the next evaluation round. **Tech Stack:** FastAPI, React, PostgreSQL, LangGraph, YOLOv11, XGBoost, Docker, ChromaDB
- **AgriForge AI – Smart Agriculture Ecosystem:** AI-powered platform for Indian farmers integrating crop classification, disease detection, market intelligence, crop calendars, and LLM-powered advisory support. Secured 2.43 Lakh government funding through SSIP Gujarat. **Tech Stack:** Python, React, PostgreSQL, Supabase, REST APIs, LLM, Machine Learning
- **Giovanna Lifesciences – Corporate Website:** Designed, developed, and deployed a professional business website for Giovanna Lifesciences, delivering a complete client-ready solution including responsive UI/UX, deployment, and production setup. **Tech Stack:** React.js, HTML, CSS, JavaScript, Tailwind CSS, Framer Motion
- **Shree Sofa House – Business Website:** Built and delivered a custom business website for Shree Sofa House, showcasing products and services with a modern responsive design and production deployment. **Tech Stack:** React.js, HTML, CSS, JavaScript, Tailwind CSS, Framer Motion
- **Eunoia Homoeopathy – Professional Website:** Delivered a complete client-ready website from design to deployment including hosting, domain setup, and production deployment. **Tech Stack:** React.js, HTML, CSS, JavaScript, Tailwind CSS, Framer Motion
- **Urban Intel AI – Smart City Governance Platform:** Built a hybrid AI platform for predicting water scarcity, traffic congestion, pollution, and urban risks using six Random Forest models and TinyLlama-based policy recommendation engine with complete local data privacy. **Tech Stack:** Python, FastAPI, React.js, PostgreSQL, Random Forest, TinyLlama, Docker
- **Mumbai Pulse – CityForge (NASA Space Apps Challenge 2025):** Developed an environmental intelligence dashboard using NASA Earth Observation datasets for monitoring urban heat islands, air quality, and environmental risks across Mumbai through interactive GIS visualizations. **Tech Stack:** React.js, FastAPI, Python, NASA Earth Observation APIs, Leaflet.js, GIS, PostgreSQL
- **Smart Cattle Health & Milk Yield Prediction:** Built dual AI models achieving 90% milk yield prediction accuracy and 85% disease detection accuracy for dairy farmers with analytics dashboard and automated reporting system. **Tech Stack:** Python, TensorFlow, Scikit-learn, XGBoost, Flask, React.js, PostgreSQL
- **TerraForge – Environmental Intelligence OS:** Built an AI-powered environmental intelligence platform helping governments and farmers make proactive decisions using climate, environmental, and geospatial datasets. Developed during DotSlash 9.0 National Hackathon. **Tech Stack:** Python, FastAPI, React.js, PostgreSQL, Machine Learning, GIS, Docker
- **Agent Arena – Competitive Intelligence Agent:** Developed a memory-augmented AI agent that analyzes startup ecosystems using GitHub, Reddit, and Hacker News data to generate competitive intelligence insights and trend analysis. **Tech Stack:** Python, LangGraph, ChromaDB, FastAPI, GitHub API, Reddit API, Hacker News API, LLMs

HONORS AND AWARDS

- Winner – NASA Space Apps Challenge 2025 (Local Event, Vallabh Vidyanagar)
- 2nd Rank in Gujarat – IBM AI Innovation Challenge 2026 (IBM × CSRBOX × iHUB Ahmedabad)
- 1st Runner-Up – Ingenious Hackathon 7.0, Ahmedabad University
- 6th Rank – Hackverse Mumbai (50+ Teams) for LogiMind AI
- Invited to Microsoft Office, Hyderabad after Hackverse Mumbai
- Top 8 Finalist – DotSlash 9.0 National Hackathon, SVNIT Surat (550+ Teams)
- Top 40 Finalist – Hackovate 2025, LJ University
- Finalist – HackBaroda 2026 Devnovate
- Shortlisted Team – HackOut 2025, DA-IICT Gandhinagar
- SSIP Government Research Funding Recipient – 2.43 Lakh for AgriForge
- Participant – Bharatiya Antariksh Hackathon 2025 (ISRO)
- Participant – Game Jam, ITM University Baroda

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Gujarati
- **Leadership:** led AI and Full-Stack development across multiple national-level hackathons
- **Activities:** Hackathons, Open Source Development, Startup Building, Technical Communities
